

NEW DISTRIBUTOR FOR AMF TILES AND GRID

PlastaMasta at Granville, Melbourne City & Canberra are now the DISTRIBUTOR for AMF Tiles and Grid.

It is an extensive range of products that includes the Heradesign and AMF THERMATEX range.

AMF THERMATEX is a range of innovative, high performance, acoustic tiles for grid ceilings. The tiles are made from new generation, high density, bio-soluble mineral wool, clay and starch. AMF THERMATEX tiles offer superior acoustic performance and their high density mineral core provides excellent fire resistance.

AMF Australia, owned by Knauf GmbH, is a global market leading acoustic ceiling manufacturer based near Munich Germany. AMF began production of mineral fibre ceiling systems in 1963 using a patented manufacturing process. Through expansion and investment AMF now attains an operating capacity of 60 million m² of ceiling units per year and is a technological leader in performance acoustic ceiling systems.

AMF's near 100% automated production facilities have enabled it to create the most advanced mineral fibre and steel grid production plant in the world, resulting in the world's first washable acoustic ceiling tile with an RH of 100% in THERMATEX® Aquatec
